

# THE NEW ALL-ELECTRIC MINI COUNTRYMAN.

# THOUGHT-OUT DETAILS.

We've cleaned up and highlighted the things you love most about the MINI Countryman. What has remained is its robust appearance, the slim lines and the 100 % untamable MINI spirit. This is the SAV that takes you to exciting places in maximum comfort. The new MINI Countryman is your reliable accomplice with more fearlessness and less of everything else. With its robust construction, bold SAV design and imposing presence, the new MINI Countryman radiates self-confidence and thirst for adventure.

## MINI TO THE MAX.

Say hello to our most grown-up MINI ever. The new MINI Countryman is 13 cm longer and 8 cm higher than its predecessor model, offering enough space for all imaginable adventures with friends and family.

# REFINED TO THE MAX.

Fine craftsmanship and selected details determine the aesthetics of the interior. High-quality materials, advanced technology and atmospheric lighting ensure an emotional driving experience. Once you get into the MINI, you probably won't want to get off.

## MINI EXPERIENCE MODES.

Reflect your own mood. The MINI Experience Modes open a world of connected and emotional experiences that awaken your senses. Each mode is a specially coordinated interplay of visual design, ambient lighting, and sound design. With just one command, you can completely change the look of your cockpit.

## OLED, OLED OLED OLED.

The pulsating heart and centre of your cockpit is the unique, round OLED display. With state-of-the-art OLED technology, a diameter of 240 mm and a high-quality glass surface, the display has a distinctive, minimalist look. It serves as an instrument cluster and controls at the same time the infotainment and assistance systems. The round shape is a world innovation.

## GOING NEW WAYS WITH INNOVATIVE MATERIALS.

Using fabrics, MINI establishes a completely new aesthetic. The new material we use for the cockpit and door panels creates a particularly pleasant ambience. The fabric is high-quality and easy to clean. It offers a pleasant tactile experience, more design options and serves as the perfect canvas for the exciting projections in the various MINI Experience Modes.

## ALWAYS CONNECTED.

Advanced MINI Connected functions available.

## AS USUAL.

MINI typical toggle bar. With gear selector lever and possibility to start or switch off the vehicle.\*

\* The equipment shown is part of the functional packages or a trim.

# ESSENTIAL TRIM.

The Essential Trim presents a maximally clear, reduced overall picture and emphasizes certain functional parts such as the logo with the new colour tone Vibrant Silver. The new colour palette for the exterior underlines the modernity. In the interior, black sports seats with clearly patterned multitone fabric convey an elegant ambience. Your MINI sales consultant will be happy to inform you about possible combinations of model, trim and functional packages.

# FEATURES.

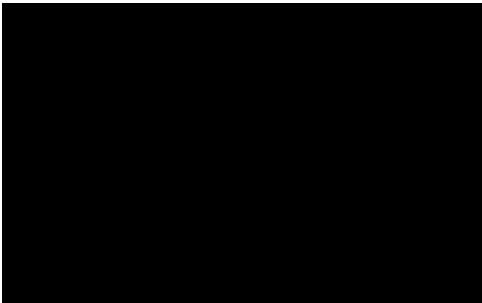

Seats:	Double cloth textile in black / multitone.
Steering wheel:	Two-spoke steering wheel in Vescin.
Interior finish:	Dashboard and door trim in black.
Wheels:	17" Profile Spoke grey. 18" Asteroid Spoke.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

# PAINT COLOURS.

Melting Silver III.

Midnight Black.

# CLASSIC TRIM.

With the Classic Trim MINI brings a modern 2D knitted fabric for the first time into the interior of a production vehicle. On the dashboard and in the doors, the two-tone or black knitted material builds a fascinating contrast to the high-quality Vescin synthetic leather seats. It is available in grey or black with a perforated houndstooth pattern; the side surfaces are in a contrasting blue fabric. On the outside, the radiator grill surround is finished in high-gloss black and the MINI logo in Vibrant Silver. Your MINI sales advisor will be happy to advise you on possible combinations of model, trim and functional packages.

# FEATURES.

Seats:	Sports seat synthetic leather Vescin / fabric combination black / blue. Sports seat synthetic leather Vescin / fabric combination grey / blue.
Steering wheel:	Dashboard and door trim in two-tone knit black / blue.
Interior finish:	Dashboard and door trim in two-tone 2D-knit black / blue.
Rims:	17" Profile Spoke grey. 18" Asteroid Spoke.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

# PAINT AND ROOF COLOURS.

Note: The illustration shows the paint colour and the combinable roof colours.

	
Nanuq White.	Midnight Black II.
	
Melting Silver III.	Smokey Green.

# FAVOURED TRIM.

The Favoured Trim is modern and sophisticated, yet has a very special and individual style. It is the most expressive trim for true individualists with a two-tone houndstooth pattern on the knitted dashboard. The sports seats in Vescin perforated synthetic leather, available in two colours and with traditional accent stitching, complement this extravagant trim level with dark and bright options. On the outside, the radiator grill surround in Vibrant Silver stresses the vehicle’s front end. Your MINI sales advisor will be happy to advise you on possible combinations of model, trim and functional packages.

# FEATURES.

Seats:	Sports seat synthetic leather Vescin / dark petrol. Sports seat synthetic leather Vescin / beige. Sports seat synthetic leather Vescin / vintage brown.
Steering wheel:	Three-spoke sports steering wheel in synthetic leather Vescin. Six-o’clock-spoke in fabric Vibrant Silver.
Interior finish:	Dashboard and door trim in two-colour knit petrol / brown.
Rims:	18” Asteroid Spoke Vibrant Silver. 19” Kaleido Spoke 2-Tone. 20” Windmill Spoke 2-Tone.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

# PAINT AND ROOF COLOURS.

Note: The illustration shows the paint colour and the combinable roof colours.

	
Nanuq White.	Midnight Black II.
	
Melting Silver III.	Smokey Green.

# JOHN COOPER WORKS TRIM.

The JCW Trim shows the new material concept in a maximally sporty interpretation. The JCW seats have the same geometry as the sports seats, combining multi-coloured knitted material and synthetic leather with red stitching and continuing the black-red colour concept of the knitted dashboard and interior door panels. The JCW Trim has an individual front and rear design to underline the sporty claim. Radiator grill surround and logo in high-gloss black underline the powerful overall impression. A contrasting roof in Chill Red or JCW specific red or black bonnet stripes are optionally available. Your MINI sales consultant will be happy to inform you about possible combinations of model, trim and functional packages.

# FEATURES.

Seats:	Sports seat synthetic leather Vescin. Vescin /knit combination JCW Black.
Steering wheel:	John Cooper Works steering wheel. Additional: Six-o'clock-spoke in fabric black / red.
Interior finish:	Dashboard and door trim in 2-tone black / red knit.
Rims:	19" John Cooper Works Runway Spoke black. 20" John Cooper Works Flag Spoke 2-tone.
Headlining:	Anthracite.
JCW:	Specific additional items JCW trim.

Note: Description and illustration exemplary for MINI Countryman. Changes can be made at any time.

# PAINT AND ROOF COLOURS.

Note: The illustration shows the paint colour and the combinable roof colours.

	
Nanuq White.	Midnight Black II.
	
Melting Silver III.	Legend Grey.

# READY FOR ADVENTURE?

## AWAITING THE ADVENTURE.

The exciting MINI TwinPower Turbo technology ensures the performance, efficiency, and the special feeling behind the wheel of the new MINI Countryman.

## POWER AND PERFORMANCE. ON AND OFF ROAD.

Whether in parking lots or in national parks – the new MINI Countryman has the necessary power, spontaneity, and responsive steering for every journey. Every turn is an adrenaline-pumping experience, from winding mountain roads to city roundabouts. If you choose a model with our ALL4 all-wheel drive, you are well prepared for even the most demanding routes.

## ALL4 FOUR-WHEEL DRIVE.

The ALL4 all-wheel drive system dynamically distributes power between all wheels for off-road traction and grip on all surfaces. And when it detects a loss of traction due to wet or icy roads, it dynamically switches power as needed. In this way you can use the robust, adventurous character of your new MINI Countryman. No matter what the weather forecast looks like: you stay in control – and you are in your element.
